### LILIIHA TO GET CARS

PEACEFUL SETTLEMENT OF THE STREET CAR TROUBLE BELIEVED TO BE IN SIGHT.

The committee of five who were appointed by the residents of Liliha street at their mass meeting Tuesday night to look into the transportation problem affecting that section of town, waited on President Peck and Manager Buley of the Rapid Transit Company this morning and were closeted with them for nearly two hours.

At the conference this morning practical measures to relieve the difficulties existing at King and Liliha street were gone over thoroughly by all present, and the plan which was proposed by the company seemed to be regarded as reasonable.

L. L. McCandless, chairman of the committee, stated afterwards that he thought the company would do all in its power to run cars to the complete satisfaction of everyone concerned, and that the matter was finished for the time being.

The following letter was sent by the citizens' committee to the Rapid Transit:

"Honolulu, Hawaii, Jan. 29, 1908. L. Tenney Peck, Esq., President H. R. T. & L. Co., Honolulu.

"Dear Sir:—Last evening the patrons of your Liliha street line assembled together, over fifty strong and of every walk of life and of several nationalities. At that meeting the following resolution was adopted:

"Whereas immediately upon the handing down of the decision by the Supreme Court sustaining the injunction against a change in the 10 minute service on Liliha street line of the Rapid Transit, the Rapid Transit Company immediately disarranged its service on that line so as not to connect with the King street line as formally, and

"Whereas, such disarrangement has resulted in great inconvenience to all of us here assembled,

"Therefore Be It Resolved, That, the chairman of this meeting appoint a committee of five gentlemen to represent this meeting of the patrons of the Liliha street line of the Rapid Transit Co., and that the committee on behalf of those here represented be authorized to take such steps as may to them seem best to secure permanently for us such a service as existed before such decision."

The chairman of the meeting then appointed the following committee: L. L. McCandless, chairman; A. F. Judd, G. R. Carter, J. Wakefield, and W. H. McInerney.

"We, the same committee, in calling upon you personally, desire to ask you on behalf of the Rapid Transit Company to comply with the reasonable request suggested in the resolution, and to restore to your patrons in that part of the town from whence we come the car service which we enjoyed previous to the decision by the Supreme Court in the case of the Territory vs. the Rapid Transit Company on January 20, 1908.

### ALL AFTER WALLACH

PROSPECT OF A VERY WARM MEETING AT AALA PARK SATURDAY NIGHT.

The tide seems to have turned in the sentiment of the Hawaiians towards Female Rock Wallach. He is no longer the idol that he has been in the past, and indications are that he is to get the bump of his life next Saturday night at the mass meeting to be held to hear the report of the committee of ten.

It is reported that Charley Notley, who up to this time has been the chief lieutenant and press agent of the healer, has soured on his protegee and that the other members of the committee have also a greater or less degree since he refused to sign the agreement to carry out his boasted ability in healing leprosy, after all the trouble and hard work which has been done in his behalf in securing from the Board of Health the long sought sanction.

Generally the Hawaiians feel that Wallach has betrayed their trust in him, and from now on it would seem that he is to be a has-been, and that his long deferred trip to Japan at the earnest solicitation of the Japanese government, may now be taken without any serious demurrer on the part of anybody in this Territory.

It is reported that the lepers on Mokolai are very sore at the refusal of Wallach to toe the scratch. They of course had everything to gain and little to lose in the matter, and were anxious that the "Doctor" be given a chance. They had agreed to the plans made under which the experiments were to be conducted, and had even selected the twelve patients on whom the experiments were to be made. Conservative Hawaiians predict that Wallach will not find it heartful to pay a visit to the settlement after they hear the results of next Saturday night's meeting.

Dr. Atcherley and his wife appear to be the only ones who are still backing Wallach. They have taken him into a sort of partnership and it is said that the results have during the past few months been highly satisfactory from a financial standpoint. Under the protection of Dr. Atcherley's license, Wallach has been able to work much more freely, and the doctor has profited by exploiting Wallach and endorsing his remedies and whacking up on the profits. These latter are said to have been very handsome, for Wallach came high and consultations cost from \$5 to \$10 and treatment in proportion.

It is understood that Dr. Atcherley is likely to be involved in serious difficulty for violating the rules of the Board of Health with regard to reporting promptly cases of disease which come under the notice of physicians. Positive proof of such irregularity is said to have been secured concerning him and he is likely to hear something drop before long.

The Saturday night meeting is likely to be a warm one, and it is said that the roasts being prepared for the fake healer are of the sizzling variety. Atcherley is also billed for a little of the same medicine, since he and his wife have seen fit to assail some of the members of the committee of ten.

### Rich Girl Missing

LEAVING NOTE HINTING AT SUICIDE, MISS ELVIRA PESCIA MYSTERIOUSLY DISAPPEARS.

NEW YORK, January 30.—Miss Elvira Pescia, 22-year-old daughter of a wealthy retired father was formerly connected with the financial department of the Italian Government. Miss Pescia was educated in a convent school in Rome, and suicide, though for what reason is a puzzle to her parents and the police.

The missing girl is handsome, plump figure. When she left home she wore a dark tailor-made suit. Her father was formerly connected with the financial department of the Italian Government. Miss Pescia was educated in a convent school in Rome, and suicide, though for what reason is a puzzle to her parents and the police.

According to her family she had no complexioned, of medium height and love affair.

### NUUANU DAM IS ALL RIGHT

Superintendent Campbell of the Department of Public Works stated this morning that reports to the effect that there are "must holes" in the fill of the Nuuanu dam, are entirely without foundation. He stated that he has personally inspected the work within the past few days and that it is in first class shape in every respect and ready to be turned over to the contractor to whom the contract for finishing the work is awarded next week. Nine or ten men have been kept at work shoring in earth for the fill from the natural water flow for several months and will continue doing this up to the time the contractor takes charge, thus accomplished a good deal although but a small part of the total amount to be done.

### THISTLE CLUB AND THE LAWS

It is understood that the Thistle Club not only got into hot water with the Territorial authorities through not having taken out the prescribed \$15 license before giving their famous Bobby Burns smoker last Saturday night, but that the U. S. Revenue office also took cognizance of the matter and sent a reminder to the club that the Federal government would expect its share out of the proceeds of the entertainment before the end of the present month. This amount will be about \$12, being the pro rata amount of the annual \$25 government license dating from July 1st last year. This tax is levied whether sales of liquor are made for one day or for a year.

PARTY MEETING.  
A meeting of the executive committee of the Republican Territorial Central Committee has been called for five o'clock this afternoon, when it is understood that the matter of the change in the Land office will be considered.

### PRATT'S CASE IN COMMITTEE

Land Commissioner Pratt is the object of warm attack among Republicans as a result of the discussion over the change in his chief clerkship.

### WOULD BE DELEGATES

DELEGATE KUHIO ADDED TO REPUBLICAN CANDIDATES—OTHER ISLANDS WANT SOME

Republicans of the various islands are apparently going up against a vigorous fight for places on the delegation being cut down to two, with two alternates. On the other hand the Democrats, who still have six regular and six alternates, have not enough candidates. "Any prominent Republican who wants to go as a Democratic delegate can get there if he will switch over," said one of the Democrats.

A Republican proposal from Maui is that each county be allowed one man, instead of Oahu "hogging it all." Word has been received from Delegate Kuhio, however, that he wants to be a delegate, and it is understood that the other delegations is likely to go to Governor Frear. H. P. Balgwin of Maui is also said to be quite willing to go if nominated. A. G. M. Robertson, who as national committeeman might be expected to go, has stated that he will not be a candidate this time.

In the last six delegates to go from here Oahu had four, Governor Carter, Delegate Kuhio, W. H. Hoogs and Robertson. Maui had W. T. Robinson and Kamaui Senator Knudsen, while Hawaii was left in the cold.

AN ENTERPRISING MERCHANT

K. Yamamoto is the biggest importer of Japanese goods to Hawaii. Every steamer from the Orient (tramp or passenger) brings him the largest shipment consigned to one firm. By getting his goods in large quantities the freight and other charges are greatly reduced which enables him to undersell all competitors.

It is stated that the central committee may appoint the whole proposition as the appointment of a new chief clerk in the land office has not yet been formally made, as far as an actual commission is concerned. It has, however, been settled upon and announced and this is where the kick came in.

Charley Clark, W. C. Achi and various other leaders of the practical sort have been reported out for Pratt's scalp since the change. The kick is rather over the manner of making the change, ignoring the "machine" than over the change itself, while other are angry over the change itself. "Pratt's right to make a change is admitted," said one of the kickers, "but he has no right to ignore his party in doing it."

WHILE ALMOST DYING OF THIRST AND EXHAUSTION THEY WERE PASSED CLOSE BY, BY THE BIG SHIP FORT GEORGE—SHOCK OF HER PASSING KILLED ONE SUFFERER AND DROVE OTHERS INSANE.

Out of an ocean agony there came thirteen sick and shipwrecked seamen who for sixteen days, each sun a seeming eternity of hell, sought land over a thousand miles of thirst in a leaky boat. Thirteen today reached this harbor and are now in the hospital. Three died, raving for water, when salvation was almost within reach.

In the Inter-Island steamship Claudine at 4:20 o'clock this morning there arrived from Maui, where they landed in their open boat on Monday morning last, the master and a dozen men of the American ship Eclipse which was struck by lightning on December 4, en route from Newcastle to San Francisco, later developed a leak and was abandoned about 950 miles south of Hawaii in longitude 155 west on January 11. She sailed from Newcastle on September 16 and was 117 days out when Captain Larsen ordered all hands to the boats.
